

DUNE PALMS

BRIDGE IMPROVEMENT PROJECT

CONSTRUCTION ALERT: **Week of April 24, 2023**

Crews continue to prepare the jobsite for drilling work to begin this week on the eastern bridge span columns. Watch for trucks entering and exiting the job site on Dune Palms Road.

PROJECT UPDATE

Crews continue working on the east and west side of Dune Palms bypass road.

- One lane remains open in each direction.
- The speed limit is 25 MPH in the project area.
- A dedicated pedestrian and cyclist lane on the west side of Dune Palms Road is separated from vehicles by k-rail.
- No U-turns before or after school drop-off permitted on Dune Palms Road.

Drilling operations for the bridge support columns in the riverbed begins this week. The 480-foot-long-bridge will be supported by 12 cast-in-drilled-hole concrete columns. The bridge support system will have 3 bents, or supports, each constructed of 4 columns.

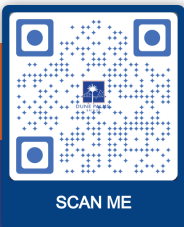

Crews working on column cage placement.

Trucks delivering the rebar column cages.

Heavy equipment mobilizing the column cages for the bridge support system.
