

DUNE PALMS

BRIDGE IMPROVEMENT PROJECT

CONSTRUCTION UPDATE: **Week of June 5, 2023**

A Dune Palms Bypass Road intermittent road closure is planned on June 8 and June 10. Extended work hours planned this week Monday – Saturday from 6 a.m. – 6 p.m.

TRAFFIC IMPACTS

Dune Palms Bypass Road intermittent road closure
Thurs., June 8 Sat., June 10 8 a.m. to 10 a.m.

- North and southbound lanes will be stopped for up to 15-minute intervals from 8 a.m. to 10 a.m.
- Traffic flaggers will guide motorists who choose to make U-turns during the closure.
- Please use alternate routes or allow additional travel time.

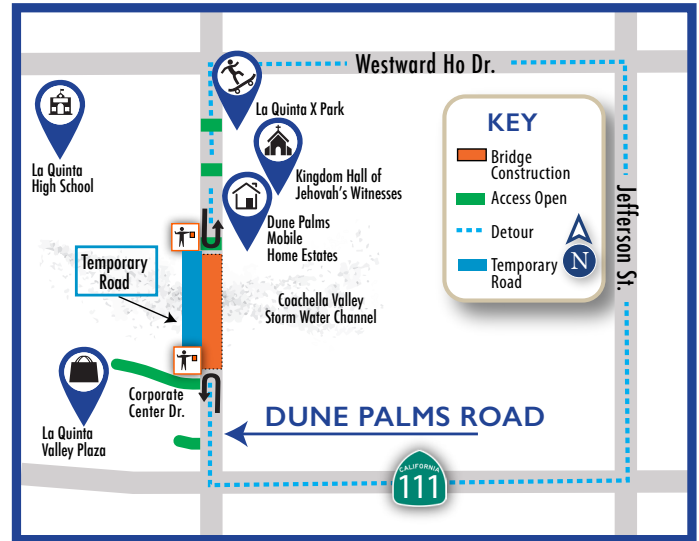

CONSTRUCTION UPDATE

Crews continue foundation construction on the northbound eastern bridge span. Contractors completed work on the assembly, drill, set and pour installation process for the 24” foundation cages. Crews will now begin work on the same foundation installation process for the 60” cages throughout the month of June.

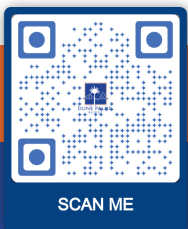

This operation will require intermittent traffic stops that are anticipated to last up to 15-minutes on north and southbound Dune Palms Bypass Road. These traffic stops will occur when contractors set the 110-foot-long cages into the ground next to the road. Please allow extra travel time during the morning hours and use alternate routes when possible. Traffic flaggers will guide traffic to make U-turns during this operation.

Project neighbors can expect noise associated with construction including vehicles, machinery, drilling and pounding.

We appreciate the community’s patience and cooperation during the Dune Palms Bridge construction process.

Crews receiving the next set of bridge support foundation cages. These rebar cages measure 5-feet by up to 110-feet-long and will be set into the ground near the current bypass roadway to eventually support the new northbound eastern bridge span.
