

# DUNE PALMS

## BRIDGE IMPROVEMENT PROJECT

**CONSTRUCTION UPDATE:** Week of January 8, 2024

**Happy New Year**

### PROJECT MILESTONE:

**Concrete placement on the northbound bridge deck is complete!**

**The contractor plans to start column work for the southbound bridge in January.**

#### Northbound Bridge

The concrete on the bridge deck has cured and passed strength testing requirements the week of December 18. Crews will begin work on the sidewalk, barrier rail, lighting and approach slabs.

#### Southbound Bridge

Crews successfully relocated a waterline to accommodate construction on the southbound bridge. This week, the old waterline is being removed and crews are preparing to begin rebar work on the cages for the cast-in-drilled-hole (CIDH) bridge columns.

#### Dune Palms Road

Dune Palms Road remains closed to through traffic and business access remains open. Please use caution and watch for truck entering and exiting the work area.
